

Company Profile

About NCrypted

NCrypted Technologies is an ISO 9001:2008 certified software company providing high-end online and offline solutions to startups and medium to large scale businesses and enterprises. The company is operating since 2006 and has a state-of-the-art development facilities of 10,000+ sq. ft. in Ahmedabad and Rajkot, Gujarat (India). We are a Microsoft, PayPal and Amazon Partner company with industry associations with GESIA (Gujarat Electronics & Software Industries Association) and NASSCOM (National Association of Software and Services Companies). NCrypted has won several quality excellence awards for it's client oriented processes and customer satisfaction including the renowned [International Quality Crown Award](#).

Our core expertise relates to the fields of Social Networking Sites (SNS), online booking and rentals, Crowd finance software, Content Management Systems (CMS), E-Commerce, Web Portals, Web Applications, Software & SAAS, Shopping Carts and corporate web design and web development. Our corporate solutions include popular vacation rental platforms, Crowd Funding & Fundraising platforms, Ecommerce & Auction platforms, Freelance Marketplaces among others. A comprehensive list of our services and platforms that we serve can be found on our website <http://www.ncrypted.net>.

Our specialization is in LAMP (Linux, Apache, MySQL, PHP), Microsoft .NET (ASP.NET, C#.NET, VB.NET), AJAX, JavaScript, jQuery, JSON, CSS, Ruby On Rails (ROR), Payment Gateway Development, API programming and integration, Open Source (Joomla, WordPress, Magento, Drupal, Shopify) etc.

With more than 100 highly skilled and experienced professionals backing our development and support, we have served more than 500 clients on 2,500+ projects across 50+ countries till date and have coded more than 1,000,000 lines of genuine and superior code so far. Our web development and software development professionals will work on your offshore projects from our offices located in India irrespective of whether you are in the USA, Canada, UK, France, Germany, Spain or any other European Union (EU)/Schengen country, Australia, Hong Kong, Singapore, Israel, Sweden, South Africa or any other country for that matter. You can hire web developers and software developers from us on monthly contract basis, on hourly basis for a given time duration or on fixed rate/cost basis on given projects as well.

Our offshore software development services are intended to serve businesses that are outsourcing software development and programming to hire developers on affordable and much cheaper rates and get their work done at world-class quality and output.

Key Facts & Figures

- ISO 9001:2008 Certified Company
- BID International Quality Crown Winner (Gold)
- Microsoft Partner Company
- PayPal Partner
- Amazon Web Services Partner
- More than **500 clients** across **50+ countries**
- 10 products, 15+ platforms powering 1,500+ sites and apps worldwide having **over 5 million monthly active users**

Methodology

At NCrypted, we follow software development life-cycle (SDLC) method and thus ensure delivery of each module in timely manner. For larger projects requiring weekly or bi-weekly deliveries, we adapt Waterfall or Agile software development methodology, depending upon the scale and complexity of the project, to ensure regular updates with reports for client purview. Every project is assigned to a Project Coordinator who is having enough experience and domain knowledge to handle the project. The Project Coordinator then manages the whole team and project related tasks from our end and ensures regular communication with the client.
